Did America Get China Wrong? (with Professor Aaron Friedberg)

July 29, 2022 | *The Bulwark*

By: Eric Edelman and Eliot Cohen

Related Expert: Eric Edelman

Eric and Eliot host long time friend and colleague Professor Aaron Friedberg of Princeton to discuss Aaron's new book *Getting China Wrong*. They cover why we have persistently underestimated China's rise as a revisionist power, the failures of the West's "engagement" strategy, the elements of a different approach to China, dividing Russia and China, and the sorry state of academic political science.
